From Harper's Magazine. MY BÔAT.

I sent it out upon the stormy sea, Freighted with hope, with many cares and fears Trusting, in due time, its return to me, I sent it out in a farewell of tears. It has not come, though years have passed away-Yull time enough for it to go and come:

Upon the shore I watch, day after day, With straining eyes, for its returning home, O! tell me, have you seen it, sailors grim and gray,

You whose whole lives are passed upon the sea, O' tell me, have you seen in any sea or bay The boat that years ago went forth from me It was a little boat to venture forth from land.

Too small, I fear, to combat with the gale; But years of labor, on this dreary sant, I spent upon the hull, and mast, and sail. Its name was " Faith "-a gentle, trusting name-None fitter could it bear upon the stormy sea; Its builder cares for neither wealth nor fame:

My little boat is all the world to me. O' hear ye winds that fill its little sail ' Deal gently with the wanterer wheresoe er it be In storm and calm, in sunshine and in gale, Remember little " Faith" is all the world to me

O horsterous waves, that roughly dash and break, Filling my soul with dread upon the shore. convenient for persons visiting the battle ground. No effort will be spared to render Break gently round her prow and in her wake If ye should take my . Faith " what have I more !

> Hon. Dan. W. Voorhees a Life Member of the Sunday School Missionary Society.— A novel scene occurred in the Sunday School of the M. E. Church in this place last Sunday .-Rev. Dr. Nutt. of Bloomington, was here in behalf of the missionary society, and an appeal was made to the pupils of the Sun-Dry Googs, Confections, Groceries, Notions, day School to buy life memberships in that branch of the missionary society, at \$1 each. The children "went in" with spirit; Gen. Grant, Gen. Butler, Gov. Morton, and others, were severally made members, with words of encouragement on the part of the managers. Presently a little Democratic boy sung out that he would give 25 cents to make Hon. Dan. W. Voorhees a life member! The proposition was astounding to those in authority, and no encouraging words were spoken in support of that motion! Still, two other little Democratic boys offered a similar amount each. The fourth came from a Republican boy, who tendered his quarter just before his father's indignant frown and shaking of the head caught his eye! It has become a trite saying with the Ab-ditionists that it was not their desire or in-

tention, when the war broke out, to abrogate the Constitution, annul State rights, emancipate slaves, confiscate private property, and arm the blacks. "We had no desire to do these things," they say: "but." sire to do these things," they say; "but," they add, "a military necessity forced the President and the people to change their views, and therefore the new poncy was adopted and the Emancipation Proclamation made its appearance, and the arming of negro troops commenced." Such is the language used by the Loyal Thieves League of Philadelphia, in their polyneal tract Ne, 18. The office-holders are attempting to advocate the re-election of the "mutty advocate the re-election of the ioker." and to excuse and pallinte his violated promises and his total disregard of Constitutional obligations. Hence they say in their political tract: "The conviction insensibly spread that the strength of the rebellion lay in slavery, and that we could no longer allow our military policy to be controlled by Constitutional scruples." So they (the President and all of them) considered that the time had arrived—the "military necessity"—when they could with brazen audacity, violate their oaths and put the Constitution at defiance. consumptivepatientenowenjeringeenthealth, weighing nearly 200 pounds. I will conclude by relating three cures I have mide in New York, and which are all different, and wish any one who feels any interest in the united to visit them. First is Mrs. Farlow, residing then at No. 197 Houston street. Her husband called upon me at my rooms, 12 Bond street, and wished me to call and see her. He said could do so good; that he had had all the best medical attendance, and all said she was too far gose with Consumption to be cared but she had beard of some great cares I had made, and he desired to gratify her wishes.— I called, and found her lying confined to her bed in the last stage of broughing consumptien, and without doubt must have died soon.
I examined her lungs, found both brenchid tubes very much affected, but no cavities had formed, her cough was very severe, the spithox was half full of thick pus. Pulse 149, legs swollen very much; and worse-than all, she had chronic diarrhox. Her bowels had been moved eleven times that day. . I told her that she chad lungs enough to be cured, but that this diarrhore and been of long standing, and her stomach was in such an ulcorate i condition that I was affaid nothing could be done. She insisted I should try and do what I could and gave me a forg certificate, certified to by

Syrup; Tonic and Pills, and told her to take them just as the directions were printed. She came back to my rooms, 33 B m I street, in two week, somewhat better; her tong is had be-gin to clean a little around the edges, her skin whiter and her eyes brighter, and the tumor discharging very offensive matter, much faster than it had ever done before. She kept gradually improving, and in about two months she came to my rooms very much frightenel, saying that the tumor had nearly stopped run-ning, and was healing up, and that every doctor had to'd her that if it ever healed it would cause her death. I told her that the discuse had all left her system, and nature would heal the ulcer up. They are now healed, and have been for about a year, and she is as hearty and robust a wom in as you will find in a day's walk. She is glad for any one to call on her and takes great pains to visit any one that she hears has anything like her case, and tries to get them to come and see me. •
The next case is Miss Scofield, from Stam-

ford, Conn. Mrs. Bartholomew got her down to see me, and she has been ever since at her house. When she first came to my rooms, she was much emaciated with a distressing cough, epitting large quantities of blood. I examined ber langs with the respirometer, and in all my practice never found one with one lung as far Pills all seemed to go right to work, the lung is all healed over, leaving a cavity as large as a goose egg; good appetite, fine spirits, and has gained some thirty-five pounds in weight. She has some cough yet, which I do not think will leave her before June. I should think it would be of great interest to some unprejudiced other; and if my medicines are doing what I represent they are, they should have the credit and the afflicted know where and how they may be cured. March 7, 1864. PURE GROUND SPICES, selected and ground expressly for Dr. ROBERT HOR-NER'S New Drug Store.

From Harper's Magazine.

I sent it out upon the stormy sea, Freighted with hope, with many cares and fears, Trusting, in due time, its return to me,

I sent it not in a larewell of tears. It has not come, though years have passed away--Full time enough for it to go and come:

Upon the shore I watch, day after day, With straining eyes, for its returning home. Of tell me, have you seen it, so lore grim and gray, You whose whole lives are passed upon the sea;

O' tell me, have you seen in any sea or hay The boat that years ago went forth from me? It was a little boat to repture forth from land, Too spall, I fear, to combat with the gale; But years of labor, on this dreary sand,

I spent upon the hull, and mast, and sail. Its name was " Faith "-a gentle, trusting name-None fitter could it bear upon the stormy sca; Its builder cares for mitther wealth nor fame;

My little beat is all the world to me. Oʻ bear ye winds that fill its httle sail ! Deal gootly with the wan ieror wheresoe er it be In storm and calm, in sunshine and in gile

Remember little " Parth " is all the world to me O ' boisterous waves, that roughly dash and break, Filling my soul with dread upon the slipre, Break gently round her prow and in her wanted If ye should take my " Faith " what have I none?

For three years Americans have had opportunity to test the truth of the assertion, and the result has says the Nor, that great battles are followed by ram storms. While Napoleon was starthing Europe with his includry movements. the French Academy of Science directed its attention to the fact that a storm of rain or snow invariably followed his battles, and declared its faith in the truth of the noted rule now reaffirmed. > Hon. Dan. W. Voorhees a Life Member of he Sunday School Missionary Society. - A novel scene occurred in the Sunday School of the M. E. Church in this place last Sunday,-Rev. Dr. Nutt. of Bloomington, was here in behalf of the missionary society, and an appeal was made to the pupils of the Sanday School to buy life memberships in that branch of the missionary society, at \$1 each. The children "went in" with spirit; Gen. Grant, Gen. Butler, Gov. Morton, and others, were severally made members, with words of encouragement on the part; of the managers. Presently a little Democratic boy sung out that he would give 25 cents to make Hon. Dan. W. Voorhees a life member! The proposition was astounding to those in authority, and no encouraging words were spoken in support of that motion! Still, two other little Democratic boys offered a similar amount each. The fourth came from a Republican boy, who tendered his quarter just before his father's indignant frown and shaking of the head caught his eye! Dan, was elected, to the evident discomfiture of some of the old heads present.—Sullwan (Ind.) Democrat.

THE SOLDIERS' NATIONAL CEMETERY.

Some of the principal features and combinations which were used in the design for the monument to the Pennsylvania Voluntoers, wno fell in Mexico, are incorporated in the design adopted for the Soldiers' National Cemetery. The material proposed to be used is the white granite. Around the base of the monument are four statues representing, severally, war, history, peace and plenty. The column is surmounted with a statue representing the Genius of Liberty, holding in one hand the laurel wreath, and in the other the American flag. The whole height will be sixty-five feet. We think the design very fine and appropriate, but are not sufficiently well acquainted with such works of art to give a description of the different parts of it. It will be lithographed shortly, and the public will have the opportunity of seeing the design,

LETTER FROM THE STILL "HATTLE FIELD, June 4, 1864. DEAR COMPLEA: -Our position at this writing is about 12 miles northwest of Richmond, near Gaines' Miliage The fighting here has been the most desperate of the war; such determination, such bravery, such gallant charges, as have been made at this point, have no parallel during the rebellion. weighing nearly 200 pounds. I will synclude by relating three cures I have made in New York, and which are all different, and wish any one who feels any interest in the matter to visit them. First is Mrs. Factow, residing then at No. 107 Houston street. Her husband called upon me at my rooms, 32 Band street, and wished me to call and see her. He said could do no good; that he had had all the best medical attendance, and all said she wis too far gone with Consumption to be cured; but she had heard of some great cures I had made, and he desired to gratify her wishes.— I called, and found her lying confined to her bed in the last stage of are which consumption, and without doubt must have died soon. I examined her lungs, found both brenchist tubes very much affected, but no cavities had formed, her cough was very severe, the spit-box was half full of thick pus. Palve 140, legs swollen very much; and worse than all, she had chronic diversions. Her howels had been moved eleven times that day. I told her that she had lungs enough to be cured, but that this diarrho a had been of long standing, and her stomach was in such in alcer ite I condition that I was afraid nothing could be done. She insisted I should try and do ware I could for her, observing that she could not last long

them just as the directions were printed. She came back to my rooms, 3! But I street, in two weeks, somewhat better; her tong ie had be-gun to clean a little around the edges, her skin whiter and her eyes brighter, and the tumor discharging very offensive matter, much faster than it had ever done before. She kept gradually improving, and in about two months she came to my rooms very much frightened, saying that the tumor had nearly stopped running, and was healing up, and that every doctor had told her that if it ever healed it would cause her death. I told her that the discuss had all left her system, and nature would heal the ulcer up. They are now healed, and have been for about a year, and she is as hearty and robust a woman as you will find in a day's walk. She is glad for any one to call on her, and takes great pains to visit any one that she hears has anything like her case, and tries to get them to come and see me. *
The next case is Miss Scofield, from Stam-

ford, Conn. Mrs. Bartholomew got her down to see me, and she has been ever since at her house. When she first came to my rooms, she was much emaciated with a distressing cough, spitting large quantities of blood. I examined her langs with the respirometer, and in all my practice never found one with one lung so fac cone and the other lung so sound. I could not give much encouragement. I thought she would die; but to my astonishment the Pul-monic Syrup, Seaweed Tonic, and Mandrake is all healed over, leaving a cavity as large ar a goose egg: good appetite, fine spirits, and has gained some thirty five pounds in weight. She has some cough yet, which I do not think will leave her before June. I should think it would be of great interest to some unprejudiced physician to visit these cases, particularly Miss Scoffeld, or any of them who have been cured York; but the above three all differ from each other; and if my medicines are doing what I represent they are they should have the credit and the afflicted know where and how they

the student enters upon the Graduating Course, which includes a continuance in the above studies, with their practical application in all their details. He will in turn fill the position of Accountant and Proprietor in the various Departments of Wholesale and Retail Trade, Forwar ling, Jobbing and Commission Business, Banking, Manufacturing, Mining, Steamsting, &c., and finally will act as Cashier, Book-keeper and Teller in the Bank, in each of which positions his previous knowledge will be put to the fullest practical test.

This Institution offers to young men numerous advantages not possessed by any other commercial college in the State. plete in all its appointments. It is the only Institution in the State conducted on actual business principles. The course of instruction is unsurpassed, and may be completed in about one half the time usually spent in other institutions, in consequence of an entirely new arrangem at, and the adoption of the new

Diplomas awarded upon the completion of the Commercial Course, which embraces all except the higher sets of Banking, Manufactur ing, Railroading, &c.

COMMERCIAL COLLEGES.

Business Education. The Philadelphia College stands first in the State, both in point of reputation and local advantages. The point aimed at is, to place Commercial Education where it belongs on the front rank of useful instruction. To this ad, a most thorough course of business training is adopted and carefully enderced, under the personal supervision of competent Professors in the various departments. The most perfect system of practical training ever desised has been put in operation, and is sucre-stully excried out, affording to students advantages such as have hitherto been considered passible only in connection with the countjug-house. After becoming proficient in the Science of Accounts, Penman-hip, Commerstudent is advanced to the Practical Department, where he becomes an actual Book-keeper and Merchant; passes through the different Houses; nets in turn as Tell r.
